

# Charges For Most Frequently Billed Clinic Services

In accordance with Minnesota Statutes §62J.812, listed below are frequently billed clinical services at North Memorial Health primary care clinics over \$25, including evaluation and management visit types, preventive visit types and additional frequently billed procedures at North Memorial Health.

**The prices included below are NOT what patients will be expected to pay if they have health insurance. For specific information on the amount you will owe for the services listed, please contact your health insurance company.**

## Important considerations:

- If you have health insurance through your employer, purchased directly from a health plan or MNSure, a bill for your visit will be submitted to your insurance and subject to your individual health insurance benefits and cost-sharing arrangements.
- If you have a government sponsored insurance (Medicare, Medical Assistance, Medicaid, MinnesotaCare) you **will not** be responsible for the amounts listed below, but may be responsible for cost-sharing requirements as determined by the health plan product or supplemental benefits you have chosen.
